

# INSURANCE CONSULTING SERVICES

Pro Player Insurance Group specializes in commercial and personal insurance products for individuals and small businesses. Now, the agency is extending its expertise in the form of insurance consulting services to civic, government and corporate buyers. With your respective trade and our insurance knowledge, together, we can achieve supplier diversity goals.

Pro Player Insurance Group understands that many small, diverse suppliers tend to focus on excellence when it comes to their specific trade. Navigating the world of insurance can often be time consuming and intimidating. However, not making that time and financial investment can limit business growth opportunities. Our agency can help bridge the gap between the supplier's desire to provide their services and the insurance requirements of buyers with which they seek to do business.

## HERE ARE THE WAYS IN WHICH PRO PLAYER INSURANCE GROUP CAN ASSIST YOUR BUSINESS:

Design and facilitate a workshop for diverse suppliers to:

- Identify essential insurance coverages.
- Increase understanding of the benefits of insurance and bonding.
- Share best practices for obtaining insurance and bonds to fulfill buyer contract requirements.
- Increase understanding of specific insurance requirements for the buyer.

Aid buyers in awarding contracts by serving as a referral to suppliers who are having problems obtaining or meeting insurance requirements for a contract.

Buyers have specific standards that need to be met when awarding contracts to suppliers. Our goal is to accelerate the award process, while simultaneously ensuring the suppliers are meeting or exceeding insurance requirements. In this scenario, both buyers and the diverse suppliers are protected in the event of a claim.
